Mishicot's new water tower.

Mishicot adds water tower

MISHICOT — A new water ower has been erected on Samz Road in the village of Mishicot s part of the village's water epartment improvements.

The new 75,000-gallon capaci- y tower will complement the illage's existing tower which as a water capacity of 50,000 allons. Following painting, the ew tower is expected to go into se in June.

The village is also adding a ew water well and pumping acility as part of its water im- rovements. The well was dug ast summer and work is being onducted on the pumping acility. It is expected to go into peration in May or June.
